About Steelhoard®

Heras Steelhoard is a leading site hoarding product introduced to the market in 1997. It is the original fully re-useable system and is still the best on the UK market.

Features and benefits

Cost effective and environmentally friendly

The system is low cost and re-useable, unlike traditional timber systems.

Boost corporate image

The most prestigious and attractive system due to its uninterrupted outer face giving a continuous flowing appearance, all fixings are concealed within the compound. Paint the hoarding in your corporate colours and advertise your business.

Longevity

Steelhoard has a design life of 25 years and can withstand wind speeds of up to 50mph.

Product Detail

Ground spigot

Our design includes a ground spigot. The spigot is placed on every post which is concreted into the ground. By using this design it allows for the posts to be re-used.*

* Gate posts are not re-usable.

Why do business with us

Easy management

Heras Mobile can take all the hassle out of organising compound installations and relocations. With one phone call we will install your compound anywhere in the country. At the end of your job we can dismantle and either re-locate your hoarding or store it for you.

UK coverage

Heras Mobile is a national company with local coverage. Our offices are located in Sittingbourne, Doncaster, Airdrie, Liverpool, Taplow, Wednesbury and Cwmbran.

Accredited installer

We are a member of many trade associations and organisations. Here are just some of the certificates and accreditations we are proud to have.
